Better Steps:

1st - You already know what I'm going to say, don't you! Sing through the whole piece using your solfege syllables and your solfege hand signs. If you don't know your hand signs, check out this web site: www.allianceamm.org/HandSigns.jpg. **2nd** - Now sing it on the syllable Toh. **3rd** - Next, tongue the airstream: Move L O T S of air! **4th** - Buzz it on your mouthpiece. **5th** - Play it with **GREAT** precision! (Yes, you are correct: I have given you solfege syllables for some of the notes, not all. Your job is to figure out the rest, and sing like crazy!)
